Waste Site Reclassification Form

Date Submitted: 3/30/2000	Operable Unit(s): 200-MW-1	Control Number: 2000-026
Originator: B. H. Ford	Waste Site ID: 200-E-40	
Phone: 372-9242	Type of Reclassification Action:	
	Rejected <input checked="" type="radio"/>	
	Closed-Out <input type="radio"/>	
	No Action <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This pad was in the Sample Gallery at PUREX. This 90 day storage pad and all residual waste were removed when PUREX was closed down and cleaned to meet the deactivation end point criteria for the Sample Gallery prior to transition from Westinghouse Hanford Co. to Bechtel Hanford Inc. (BHI).

RECEIVED
 OCT 03 2000
 EDMC

Basis for reclassification:

Removal of this 90 day pad was required as a 1996 PUREX deactivation end point criteria to satisfy requirements to transition the facility to BHI. All dangerous wastes and waste residues have been removed to meet the end point criteria and verified during transition walkdowns. Thus, WAC 173-303-630 (10) has been met for this 90 day pad.
